WORDS SO BITTERSWEET

If you've had just about enough of the sugar-coated, warm-hearted words of Sweethearts candies, why not unleash your inner bitterness with some Embittermints? The sayings on these new sugar-free mints offer a bit of attitude and flavor — and are the perfect ticket to show off your not-so-sweet side. Whether the words say, "You suck," "Bite me," or "Yo mama," these rude candies will give you the right to beef where you want, when you want. Now, how's that for power?
